EMBARK ON A DIFFERENT ADVENTURE

HOW TO MAKE A CONTINGENT TO PARTICIPATE ON THE JAMBOREE?

In order to be able to participate in the 13th Macedonian Scout Jamboree, you must be born between 21.08.2005 and 12.08.2012. If you are older than these dates, you have the unique opportunity to participate as patrol leaders, contingent leaders or volunteers / staff.

Organizing a scout group / contingent for the jamboree is not a small task. We recommend that each scout group/contingent appoint a person who will be in overall charge of the organization, which includes logistical preparation, review of news, communication with the organizer, etc. Contingent leaders are persons with knowledge and skills in financial management, persons with experience in organizing groups for participation in scouting camps, mobilities, etc. The number of leaders of scout groups/contingents and leaders of patrols is limited and is correlated with the number of participants.

NUMBER OF PARTICIPANTS	NUMBER OF CONTINGENT LEADERS
FROM 19	1
FROM 20 TO 49	2
FROM 50 TO 99	3
OVER 100 PARTICIPANTS	4+

The number of leaders is limited according to the number of participants: one leader is allowed for every 9 participants. If there are 13 participants in the scout group/contingent, 1 leader will be allowed, if there are 14, 2 leaders will be allowed.

VOLUNTEER!

A UNIQUE OPPORTUNITY FOR VOLUNTEERING IN AN INTERNATIONAL ENVIRONMENT

With the aim of successfully organizing the 13th Macedonian Scouting Jamboree, more than 150 volunteers will have the opportunity to get involved in the organization and implementation of the jamboree!

HISTORY CLASS

WE ARE BRINGING THE MAGIC BACK TO THE KRUSHEVO REPUBLIC, 120 YEARS AFTER IT'S FOUNDATION

The Ilinden uprising is one of the most important events in the history of Macedonia.

In 1903 Macedonia, the population that lived in this territory raised an uprising of the Macedonian people against the Ottoman occupation. In the framework of this uprising, the city of Krushevo was liberated and the new government was established, which represents the ideal to which the entire population aspired. The organization of the government and the Manifesto were a reflection of the principles and aspirations of the Revolutionary Organization, through the mass struggle of all the oppressed in the Ottoman Empire to win a free Macedonian state.

The Krushevo Republic presented to the world the ideals of the Macedonian insurgents for which they fought. Although the Republic of Krushevo is extinguished after only 10 days of its existence, however, it remains as one of the most important moments in our national history. This year, Macedonia is counting down 120 years since its founding.

Jubilee and proudly, we, the scouts, learn about its existence, history, Macedonian ideals and the importance of the struggle of our ancestors. We appreciate their work, investment and love for their own homeland, as well as for others, just as ours guide us - scouting laws and principles.

Explore a little more about the Republic of Kruševo and get ready for the big scouting revolution that will take place from July 12 to 21 this year!
